

**Webinar agenda**

**“From monitoring to remediation”**

**23/04/2026**

**11:00 CET**

Time (CET)	Presentation title	Presenter
11:00 – 11:10	Welcome	Chrysa (IMERMAID)
11:10 – 11:20	Engaging Communities for a Plastic Litter-Free Future	REMEDIES
11:20 – 11:30	IMERMAID: Use Case 3	IMERMAID Project
11:30 – 11:40	Reducing Chemical Pollution through Innovative Nature-Based Water Treatment	RHE-MEDIation
11:40 – 11:50	Using aptamers as sensing elements in electrochemical sensors (aptasensors)	MOBILES
11:50 – 12:00	The remediation of drinking water and sewage sludge - from lab to pilot scale	ZeroPM
12:00 – 12:15	Coffee Break	
12:15 – 12:25	On-site biological sensing for aquatic pollutants and biohazards	AquaBioSens
12:25- 12:35	Application of an integrated chemical and biological effects assessment framework to	CONTRAST

## MARINE SHIELD

	determine the impacts of contaminant exposure on sentinel species from the Oslofjord.	
12:35-12:45	Integrating renewable ocean energy, environmental monitoring and marine biodiversity protection	SUNBIO
12:45-12:55	Q&A Session	All
12:55-13:00	Closing remarks
